

## ROSWELL BATTERY IN FINE SHAPE

Governor Mills and General Brooks Return From Visit to Pecos Valley Where They Inspected Artillery.

Santa Fe, July 15.—Governor William J. Mills and Adjutant General A. S. Brooks returned from Roswell at noon today.

The governor said that he had a most enjoyable trip. He went to Roswell direct from Santa Fe and rode out to Camp Jaffa in the Captainage, where the artillery is in camp, arriving there Tuesday. There was long distance shooting that day and on Wednesday there was shooting on the plateau, at an open target. The governor said that the company looked well and that the camp seemed well located. He found the men in camp were enthusiastic and Captain Murray and the other officers were well pleased at conditions. The governor returned to Santa Fe Roswell, he said, in a flourishing condition, and he seemed especially impressed with the new court house which will be the finest in the territory.

"The country has had lots of rain," he continued, "and the grass never looks better. The fruit trees in the Pecos valley are literally loaded down with fruit. I understand that a thousand carloads of fruit will be shipped from the valley this year."

The governor said that the second crop of alfalfa is being cut and sold for \$12 to \$17 a ton.

Major W. H. Llewellyn, district attorney at Las Cruces and Mr. and Mrs. W. A. Fleming Jones, one of Las Cruces, came on the same train today with the governor, and Adjutant General Brooks.

Territorial Treasurer M. A. Ober has received the sum of \$3629.58 for the treasury, from William M. Robbins, treasurer of Sierra county.

The following were the land entries at the Santa Fe land office yesterday: David M. Pearson, Taos; Leon Locke Springer, Anna M. Crowley, Astor; Jose Trujillo Martinez, Roy Antonio Sena, Cecilio Lusero, Ezequiel Sena, Villaescusa; William R. Wren, Mountainair; Estebano Luna, East View; Jesus M. Gonzales, Palma.

The startling rumor sent by Las Vegas that Will Rogers had escaped from the penitentiary was brought to the attention of Governor Mills at 2:30 o'clock yesterday afternoon and in a few minutes the rumor was officially denied. Rogers is still in the penitentiary where he is serving a five-year term for kidnapping.

The following contests have been filed: No. 913, homestead entry 65994 Thaddeus A. Windsor vs. Floyd A. Turney, filed March 12, 1908; No. 914, homestead entry 91349, Edouard La Boston vs. Virginia Morris, filed September 12, 1908; No. 15, homestead entry 916126, Thomas H. Dinsdale vs. Louis Jamison, filed July 26, 1908; No. 317, homestead entry 16192, the United States vs. Robert D. Zaper, filed October 29, 1908.

### Seeks Her Father.

The following letter was received at the local post office:

Wauwington, Chester County, Pa.  
Register and Receiver, Santa Fe, New Mexico;

gentlemen.—Would you kindly furnish us with the following information: Has a party by the name of A. H. Costa, or use Costa, taken up mining claims in your locality or in the near or surrounding country? We are trying to locate my father, and we had received information that such a party owned mines at Silver City, or in the near locality. If this party has taken up claims in New Mexico in the last seven years, would you kindly let us know to return mail.

Thanking you in advance for the all dealers.

## THE BIGGEST INVESTMENT FOR THE ONE WHO DRINKS

### Neal Treatment Viewed In a New Light.

### Business Men Released From Bondage of Drink Held in Three Days.

The average man who drinks to excess does not realize his peril. Wives, daughters, mothers, fathers, brothers and business associates are the ones who realize the truth. The drinker himself always finds excuse for his own overindulgence. He attributes his restless desire for liquor to nervousness, worry over business, little domestic trouble, or any one of a dozen other reasons.

As a matter of fact he overdrinks the rest one great cause.

What the world knows as "liquor appetite" is simply the result of alcohol poisoning. This accumulated poison in the system of every drinker calls for treatment because nature alone cannot expel it. The Neal Treatment neutralizes and then eliminates all this alcoholic poison from systems saturated with it. No matter how long the drink habit has been in existence three days of the Neal Treatment will drive away all the old desire for liquor. Instead of the old appetite and craving there will be positive aversion for all alcohol drink.

A business man who is drinking

*"Before beginning Cassarets, I had a bad complexion on my face, and my food was not digested so well, and the complexion had disappeared from my face. I can truthfully say that Cassarets are just what I wanted."*

### ROOSTERS' CLUB VS. CITY'S LIGHTING

Today nearly every progressive city in the United States with a population of 10,000 or more has its秉光 club. When a board of trade or a boosters' club or chamber of commerce organization may be called, begins to consider seriously what it can do to make the city grow, it usually begins to consider civic improvements of some sort. The lighting of the city's streets is one of the things that is continually before the public, makes the first impression on a stranger, and is perhaps one of the strongest influences of a civic nature that attracts people to live in a city and make their homes in it.

The same thing applies to a city as to individuals. If an individual has property in which he wants to get the public interested, he doesn't neglect it till the buildings become dilapidated and the yard filled with weeds and debris. A well kept yard with buildings and surroundings in a clean, wholesome condition adds to the value of a property, sets an example for the neighborhood, attracts public comment and encourages public spirit and a civic interest. It is more than that, one sees more improvement in installed properties as well planned with the new conveniences which the city receives than on and attend other things still greater.

## PLAYGROUNDS ARE BEING GRADED

### SCRAPERS AND GRADING MACHINES AT WORK ON BLOCK OF GROUND AT CENTRAL AND BROADWAY.

The work of placing the public playgrounds on the northeast corner of Broadway and Central avenue, in good condition, was begun today. Scrapers and grading machines were on the job this morning and with in a few hours the grounds had been well leveled. The grounds will be worked from time to time, under the supervision of the Civic Improvement Society, which originated the playground proposition. A baseball diamond will be laid out, tennis courts and hand ball alleys will be erected and swings and parallel bars will soon follow. It is likely that the civic society will give advance notice of a formal opening of the grounds and that every "kid" in town will be invited to turn out and enjoy the fun.
